Virtual Campus Offers Alternative Work-From-Home Option

Bonita Springs, Florida – Houston, Texas - 1/15/02

BeST Scoping Techniques scopist training program is pleased to announce their newly designed virtual campus. The new campus features different "buildings" such as a public reference library, student study hall and cyber center. The rec room will allow students to take a break from their studies while enjoying virtual field trips or movies in the movie theater. Moms can study while their kids play educational games in the childcare center.

The classrooms feature interactive lessons where students will learn everything they need to know to become a professional scopist, a person who works from home editing legal transcripts (court trials and depositions) for court reporters. The course is self-paced and students will enjoy complete support both as they move through the program and after.

BeST Scoping Techniques is owned and operated by Judy Rakocinski of Bonita Springs, Florida and Cathy Vickio of Sugar Land, Texas.
